The Careers and Research Forum is your opportunity to get practical career tips and advice from people working in a wide variety of disciplines in medicine, public health, nursing, pharmacy, health sciences and dentistry.

Find out about career opportunities and get career advice from staff from a wide variety of health-related government and non-government organizations.

Find out about the broad range of research options available and speak to staff from research centres such as the Brain & Mind Research Institute, Heart Research Institute, Institute of Dental Research (IDR), National Centre for Immunisation Research & Surveillance, Westmead Millennium Institute for Medical Research and many more.

Meet medical specialists from cardiology, emergency medicine, general practice, intensive care, ophthalmology, pathology & haematology - just to name a few.

University Careers Centre staff will be available to assist you with any questions you may have about career options and career development as well as provide you with information about their workshops.

Don't miss this chance to meet and network with people working in your field of interest!
